A Dream Island for Cyclists in Tokyo Bay

“CYCLE MODE TOKYO 2026” is a hands-on event held in Tokyo Big Sight, facing Tokyo Bay. It shows the fun of sports bicycles, the new experiences of the latest models, e-bikes, and future mobility.

Not only you can see and try the latest models and items, but you can also attend “learning” programs. In these programs, you can get advice from former top pro riders, world-level cycling coaches, and food experts who give advice about healthy eating.

“Bicycle × Travel Fair” also presents cycling tourism information from Japan and the world.

Plus, the “CYCLE MODE SHOP” area will be opened for two days only, by famous shops bringing special stores.

It will be enjoyable days with full of many interesting programs for visitors of all levels and interests.

“Umi-no-Mori Park” Turns into a Special Test-Ride Course!

It's a few kilometers across Tokyo Bay from Tokyo Big Sight, the main venue of CYCLE MODE. Normally, bicycles cannot be used in this park. But the special test course will appear inside only for the period of CYCLE MODE. Visitors can experience the performance of bicycles more deeply by riding a test course with ups and downs, through rich nature and partly using the unpaved road from the Tokyo Olympics.

Umi-no-Mori Park

Umi-no-Mori Park is located in the center of Tokyo Bay with the concept of “recycling of resources.” Soil contains branches and leaves from other parks and street trees in Tokyo, and 240,000 trees have been planted throughout the park. Now, the park has valleys where rivers appear after heavy rain, and forests where you can see Tokyo Tower, Tokyo Skytree, and the Gate Bridge through the trees.
